**Workshop Description:** Nationally sought after quilting instructor and pattern designer Tammy Silvers will share her guided improv technique – a practice that constructs blocks which are similar, but also uniquely ‘not exact.’ The “guided” format allows you to recreate the blocks over and over! The workshop will spotlight the modern and striking *Pointed Comments* pattern. The pattern creates a lovely table runner and placements with long, sharp points, but NO paper piecing, rulers or templates. Yes, it can be done!
