PRESIDENT'S MESSAGE

Well, fall is definitely here and we are beginning to get ready for winter. That means more time in the house sewing (translation: quilting).

Our guild will try something new this fall — a canned-food drive to benefit Foster Community Center. Everyone, please bring a non-perishable food item to the November meeting and we will deliver it to Foster. They have several families they help during the Holiday season and they provide many free rooms for the guild to use for meetings every month, so this is the least we can do. I am sure they accept money if you prefer not to get the food yourself.

I encourage you all to try taking a CCQG class if you haven't before. When I first started quilting, I had the opportunity to take a class from Ricky Tims and I felt I wasn't good enough to do it. What a mistake that was. No matter how good you are or how new you are, you can always learn something. Plus it is a good way to meet other members of the guild.

Thanks again for letting me be your president this year. If you have any suggestions or questions PLEASE feel free to call me.

Jean

Why join a CCQG small group?

by Deb Martens

Small groups within CCQG are numerous and active. Are you in a small group? If not, why not give it a try?

For me, and for many members of CCQG, being a part of a small group is a source of great joy. You will come together with other quilters, perhaps people you haven't even met before, and after a few months of joining together in quilting activities, you will become great friends. There is something about working on a group quilt, exchanging blocks or fabrics, going on shop hop trips or visiting a quilt show together, that brings out the commonality of our feelings about our passion for quilting. Along the way, we get to know each other as people with joys and heartbreaks, families and jobs, and all the many concerns of our daily lives.

I am part of three separate small groups, each with its own personality. One of the groups I belong to is geographical; we all live in and near our community. We share a connection of children who have been in school together, membership in local churches and organizations, and knowledge of our neighborhoods. As for quilting, we are a mostly work-on-our-own-projects kind of group, but sometimes come together to make a charity quilt or do a block exchange.

Another of my small groups really revolves around quilting: we started as a block exchange group, and now meet for monthly sewing days. We take field trips to shows and shops, and we often share a meal together and visit each others' homes. Our sewing days are something we all look forward to every month. We help each other with our separate projects, from an opinion on fabric choices to helping "unsew" the occasional oops! We have done several block exchanges, made charity quilts, done specific projects as a group (stack 'n whack, bargello, shadow quilts), taken on leadership roles in guild together, and just generally have bonded into a tight-knit group.

My third and newest group came together around the idea of making quilts to meet a specific design challenge. This is an adventurous group, full of positive and generous quilters. We are just getting started and it has been a really fun group so far! I look forward to the coming months and years, and getting to know these folks better. I am inspired and in awe of their collective imagination and energy!

Whatever your motivation or available free time, there is likely to be a small group for you! While many existing small groups are not open to new members due to space constraints, some are, and new groups are forming all the time. Check the guild's website for a list of small groups open to new members, or contact me or Helen Harrison, your small group coordinators, for help in forming your own small group. You will also find resources for small groups, such as ideas for block exchanges and other activities, on the website. Thank you to Rosemary Nester and Janet Scott for compiling many of these ideas.

Finally, our November guild meeting is traditionally a forum for small group sharing with the larger guild. Don't miss this program! You will be inspired to learn the many ways that small groups interact with each other. The groups will also present a "show and tell" of their projects! If you are part of a small group that would like to make a presentation, please contact me or Helen. We would love to hear from you.

New Library Books by Sharon Neuner, librarian

Two Color Quilts

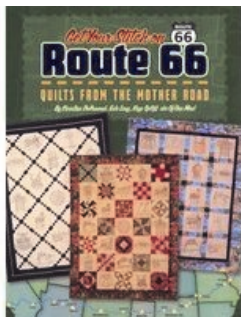

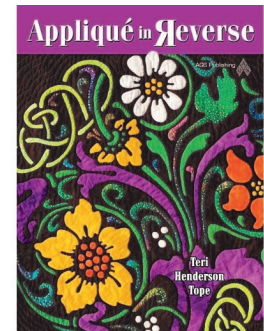

Nancy J. Martin

Nancy shares her special how-to's for creating 20 crisp red-and-white and blue-and-white quilts that are favorites of quilters and collectors everywhere. Inside find: Complete instructions for creating 20 beautiful, high-contrast quilts; pointers on fabric selection, rotary cutting, machine piecing and appliqué, and a wealth of quilting suggestions and finishing techniques.

Appliqué in Reverse

Teri Henderson Tope

Create unique dimensional looks with this classic technique that makes intricate hand-appliqué designs fast and easy. The secret is to use large pieces of background fabric underneath the appliqué designs for easier handling. Tiny seam allowances are a thing of the past! Beginners who love the look of appliqué can easily master this useful technique. Teri's flair for bold color and dramatic fabrics will encourage the artist in you.

Get Your Stitch on Route 66

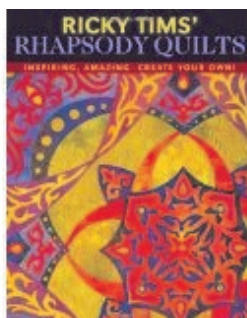

Christina DeArmond

Choose from the 21 embroidery patterns that are icons of this famous highway, and three settings to make your own personal full-size Route 66 quilt. Alternate the embroidered blocks with pieced blocks in Crossroads or Pack Your Bags, or divide them with sashing made of amusing "Burma Shave" signs as in Reading the Signs.

Quilts in Red and Green and the Women Who Made Them

Nancy Hornback & Terry Clothier Thompson

The 10 appliqué patterns in this book are beautiful examples of a 19th century quilt style noted for its decorative features - the appliqué quilt with bold, exuberant floral patterns in bright colors of red and green. The authors say, "It amazes us to think that after more than 150 years, red and green appliqué quilts still excite the eye and inspire us to recreate their beauty. Includes a bountiful selection of quilting designs."

Ricky Tims' Rhapsody Quilts

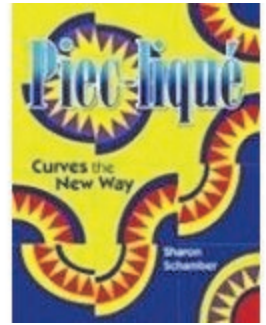

Ricky Tims

Ricky Tims teaches you to design and make these fabulous, one-of-a-kind contemporary art quilts. An inspiring quilt gallery!

Piec-liqué

Sharon Schamber

Award-winning quilt maker Sharon Schamber shares her quilt-making secrets from her years of professional garment sewing. Her need to produce projects fast and accurately evolved into a new machine technique she calls piec-liqué (pronounced like appliqué.) This method provides the speed and control to make curved piecing fun. Three dozen gorgeous block patterns have been designed or redesigned with simple curved elements. The author's original designs include beautiful flowers, like the simple daisy, charming blue bells, and the sophisticated black-eyed Susan. Quilt makers will also find excellent information on fabric selection and figuring yardages.

Crazy Shortcut Quilts

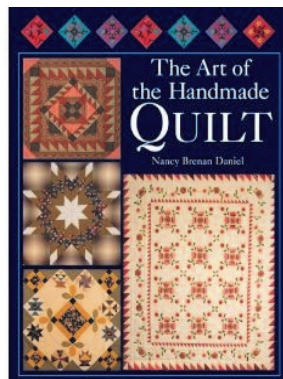

Marguerita McManus & Sarah Raffuse

Combines the look of a "Crazy Quilt" with the ease of quilt-as-you-go, so that every single quilt is unique and yet very easily made! The process uses the decorative stitches of the sewing machine to do the quilting. There's no need to learn free motion quilting when your sewing machine can do all the quilting for you, using beautiful threads and decorative stitches! The book contains solid advice about fabric selection to coordinate your quilts with your home décor, and provides time estimates for finishing each quilt.

Traditional Quilts to Paper Piece

Cori Derksen & Myra Harder

Stitch classic quilt blocks using the speed and accuracy of paper piecing. Carolina Lily, Hovering Hawk, Flying Dutchman, Lone Star--these favorite blocks and more have never been simpler to create! Choose from a dozen wall quilts in warm country colors. Stitch blocks with pinpoint accuracy - paper piecing makes it possible. Add a striking finish with a paper-pieced border.

The Art of the Handmade Quilt

Nancy Brenan Daniel

Sewing machines are speedier—but increasingly, quilters are discovering that working by hand provides more pleasure and superior results. World-renowned quilt maker, teacher, author, and show judge Nancy Brenan Daniel has created an inspiring guide with ideas for 18 beautiful hand-sewn quilts. Many of the designs come straight from Nancy's antique collection, and they're pieced, appliquéd, and even stenciled. Several traditional and much loved patterns—including the Court-house Log Cabin, Shoo-fly, Prickly Pear, and Windblown Daisy—are accompanied by a contemporary appliqué quilt and a small hand-embroidered wall hanging.
